Aerocut - 12x18 to 11x17

PDF imposition software for MBM Precision Card Pro

BizcardCut is a powerful imposition PC software tool that produces print-ready PDF output with optional cut marks and a center alignment line to ensure precision cutting every time for the MBM Precision Card Pro cutter.

Select template. Select artwork. Create PDF.

Preset Templates

With 6 Preset templates, BizcardCut can generate perfectly imposed print-ready PDFs. A template header is placed automatically on the PDF page to identify the template and contains text to match the Precision Card Pro screen prompts for easy setup. Select the template, add artwork, print and cut!
