

# INTELLICUT<sup>TM</sup> GLOBAL

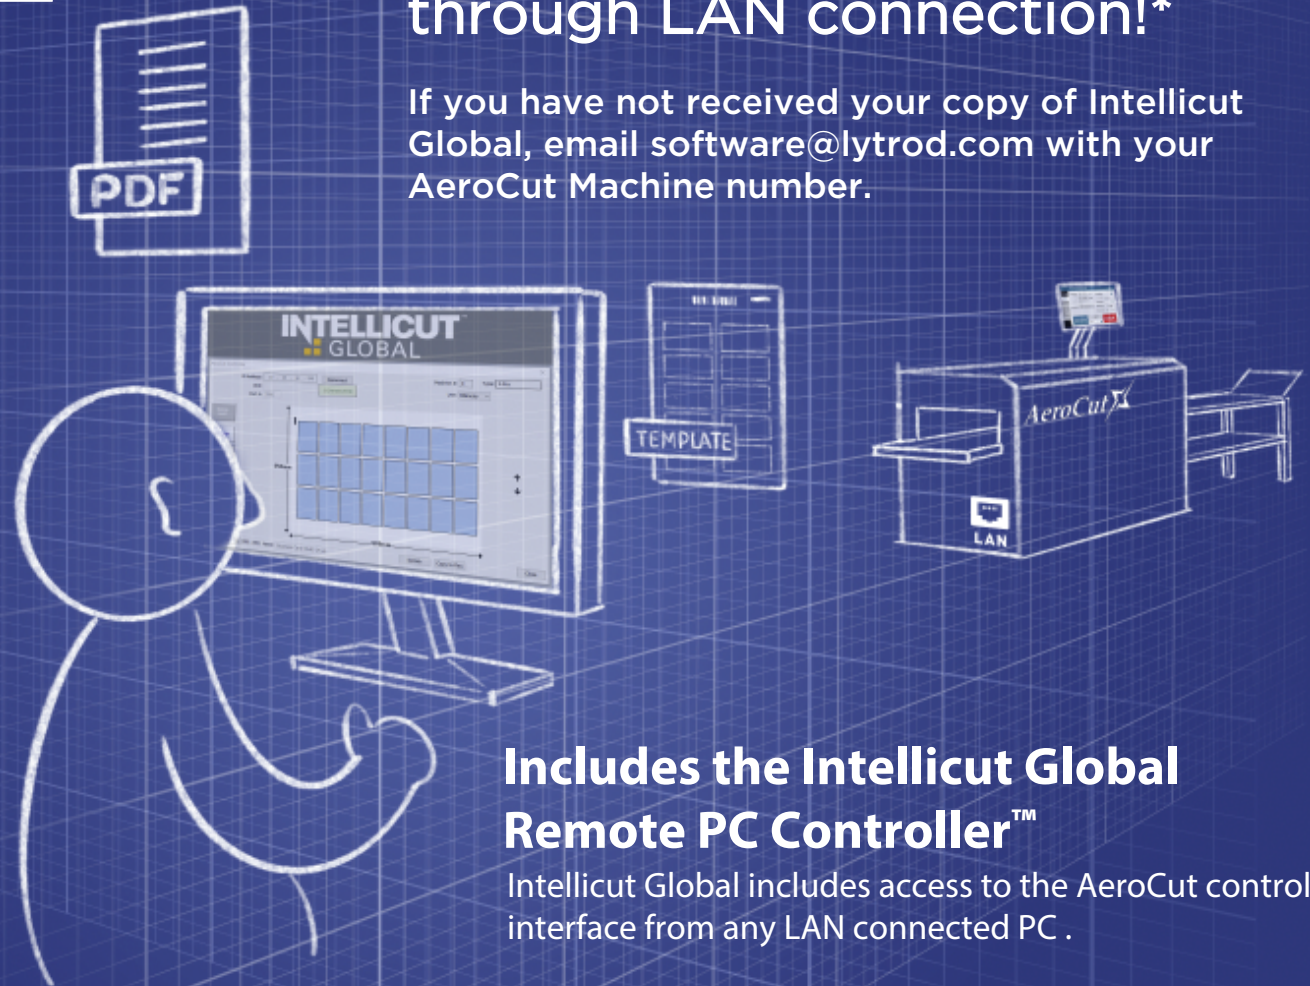

## Control, Create, Program and Finish All-In-One

Intellicut Global connects the PC Controller, PDF imposition workflow and AeroCut programming into a single powerful PC software. Easily create imposed PDF templates with a barcode that automatically meet AeroCut layout requirements. Intellicut Global will send the exact cut, crease and perforation settings to the AeroCut through your Local Area Network (LAN) connection. Once you print the Intellicut Global created imposed PDF, the AeroCut scans the barcode and automatically adjusts the machine to create perfectly finished pieces!

Intellicut Global includes access to the AeroCut control interface from any LAN connected PC. The Remote PC Controller is directly integrated with Intellicut Global imposition and programming capabilities.

Download free software  
and Automatically  
Program Your AeroCut  
through LAN connection!\*

If you have not received your copy of Intellicut Global, email [software@lytrod.com](mailto:software@lytrod.com) with your AeroCut Machine number.

## Includes the Intellicut Global Remote PC Controller<sup>TM</sup>

Intellicut Global includes access to the AeroCut control interface from any LAN connected PC.

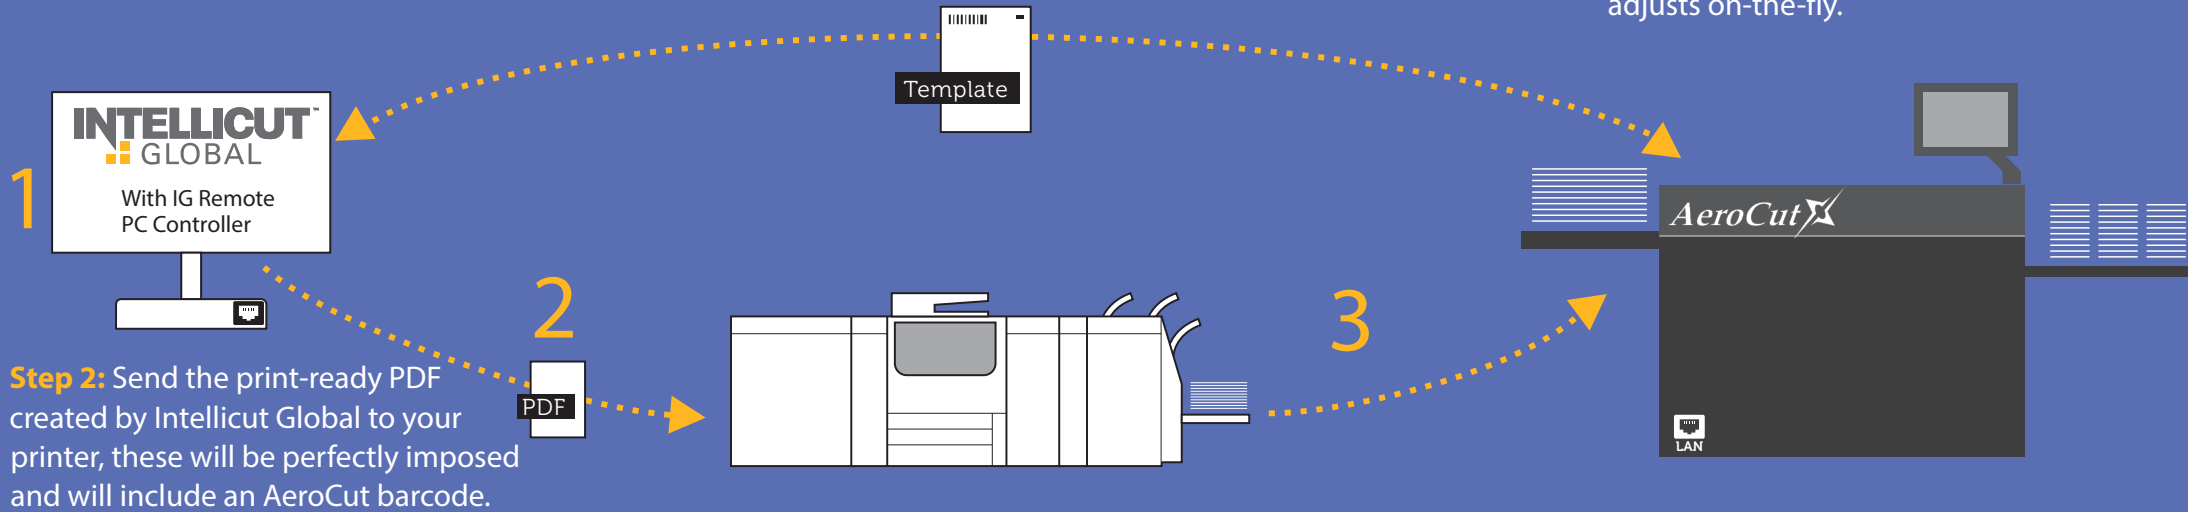

\*Purchase price and one year licensing subscription included with purchase of AeroCut X/X-Pro.

**LYTROD<sup>TM</sup>**  
SOFTWARE

**Step 1:** Use Intellicut Global's Smart Layout Assistant to automatically create an AeroCut compatible layout, then add artwork to create your print-ready PDF with the AeroCut barcode.

Intellicut Global can download the document layout template created by Smart Layout Assistant directly to your AeroCut through your office network.

**Step 3:** Place your printed output on the AeroCut, it automatically reads the barcode, adjusts the machine precisely and cuts! Even if page layouts change, the AeroCut adjusts on-the-fly.

#### INTELLICUT GLOBAL REMOTE PC CONTROLLER™

- Connect directly to the AeroCut controller system UI within Intellicut Global's software LAN connection.
- All AeroCut interface options can be updated and saved remotely.
- Update template settings to create new Manuset and Flexmode templates from scratch or using pre-existing templates.
- Adjust multiple image shift parameters and save to 4 different profiles.
- Full integration with Intellicut Global PDF creation features.

#### AEROCUT PRESET TEMPLATE MANAGER

- Instantly produce print files for over 170 Preset templates with full barcode support.

#### SMART LAYOUT ASSISTANT™

- Create AeroCut Manuset custom templates with guaranteed AeroCut compatibility.
- Send custom generated Manuset settings directly to the networked AeroCut.
- Manage your AeroCut's template library from your networked PC.

#### VARIABLE PDF SUPPORT

- Multi-page PDF splitting, imposition and ordering.
- Automatic line ordering to retain data sorting for sheetfed AeroCut cutter.

#### ADVANCED IMPOSITION FEATURES

- Easy imposition layout adjustment with AeroCut compatibility protection.
- Toggle advanced imposition project settings such as Record Repeat and Record Direction.
