PDF creation software
integrated with the
Aerocut to optimize
your print shop

VISIONFOCUS[™]

Create documents that
FOCUS on your
print and
finishing equipment.

**Aerocut Nano Documents
Formatting Made Easy**

Use VisionFocus to layout your artwork for the Aerocut Nano quickly and efficiently. Simply open the VisionFocus Template Wizard, select the appropriate layout from the Aerocut Nano library, insert your artwork and VisionFocus will do the rest. VisionFocus produces a print ready PDF document imposed to the Aerocut Nano template specifications. All VisionFocus documents include the Aerocut Nano compatible cut registration mark to ensure precision cutting.

- Send custom generated manuset template settings directly to the networked Aerocut.
- Manage your Aerocut's template library from your networked PC.

POSTAL MAILING

- Merging of addresses onto any Aerocut layout
- IMDB Intelligent Mail Barcode creation
- Automatic line ordering to retain data sorting for sheetfed Aerocut cutter

VRCUT

CUT WITH CONFIDENCE

A revolutionary tool to create and cut documents with ease on select Triumph cutters

VRCUT IMPOSE VRCUT CONTROLLER

The VRCut solution consists of two independent modules that work together. The Impose module creates PDF documents formatted specifically to work with the VRCUT Controller module. The Controller module connects directly to the Triumph Cutter moving the back gauge and visually guiding operators through the cutting sequence.

VRCUT

CUT WITH CONFIDENCE

VRCut is a groundbreaking PC software solution designed to automate the guillotine workflow by promoting an efficient and error-free cutting process from start to finish. VRCut intelligently bridges the gap between pre-press and the finishing process, allowing operators of any experience level the ability to cut with confidence on select Triumph cutters.

The VRCut solution consists of two independent modules that work together. The Impose module creates PDF documents formatted specifically to work with the VRCUT Controller module. The Controller module connects directly to the Triumph Cutter moving the back gauge and visually guiding operators through the cutting sequence.
